PROJECTS

1. To-Do List App

- **Description:** This app, built using HTML, CSS, and JavaScript, simplifies task management. Users can easily add, edit, and delete tasks with their data saved locally for convenience.
- **Technologies Used:** HTML, CSS, JS

2. Student Information Management System

Bharthidasan University | 2023 - 2024

- The Student Information Management System (SIMS) is a robust software solution developed to streamline the management of student and staff information within educational institutions.
- Utilizing VB.NET as the programming language and MS Access as the backend database, SIMS aims to replace traditional manual record-keeping systems with efficient platform.
